**3 NEW Evidence-Based Programs
Reveal SHOCKING TRUTHS About**

What Lies Ahead for Cannabis Users

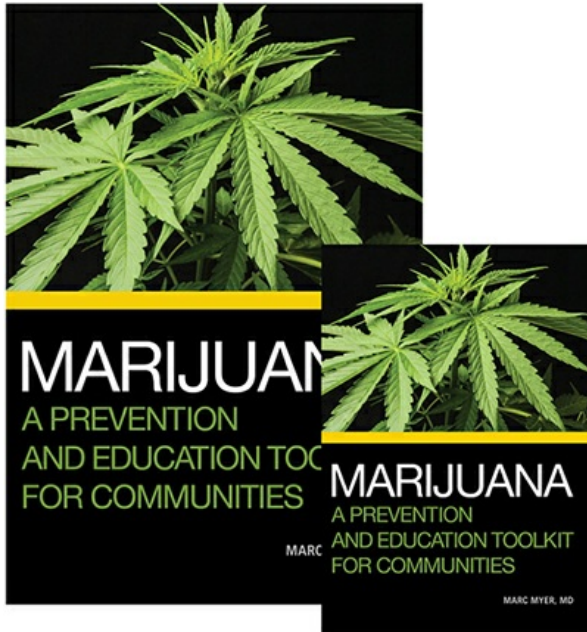

WOW! If you're like many other professionals, you get sketchy and confusing health messages attendant with the increased legalization and use of cannabis ("Weed Day" to promote cannabis use was on April 20th!).

No more! We found the **best evidence-based programs** that specifically address physical and mental health consequences of cannabis use. And the picture is not pretty. Here are the results (all NEW for 2016/2017) and what you may want to share with others in search of great new resources relating to cannabis, substance abuse, and mental health:

**Marijuana Brief
Intervention**
(\$395.95 - #4246)

CANDIS
(\$595.00 - #4248)

**MARIJUANA:
A Prevention and
Educational Toolkit
for Communities**
(\$110.00 - #4265)

These intervention and full treatment programs were developed by internationally renowned researchers in the field of substance use disorders. The new community toolkit is packed with resources for sharing the truth about marijuana.

Also, check out our other popular resources on marijuana use and abuse as well as other addiction and recovery issues relating to substance abuse:
